VALKYRIE®800

BORD A BORD - 02 96 54 18 30 – www.valkyrieboat.fr

An innovative concept VALKYRIE BOAT

A new range of customizable and high-performance vessels
manufactured and designed in France by Œuvres Vives.

Guilhem ANDRE

Naval architect at Œuvres Vives Architecture Navale

"It took many trials and many hours of design to perfect a concept that was dear to our hearts. After years of research, we built a vessel that is stable in all sea conditions, a robust vessel that can withstand bad weather and heavy use, a durable vessel that fears neither the years nor unforeseen events, and finally, a customizable vessel that can meet everyone's needs, all thanks to its 100% 5083 H111 aluminum construction."

Discover it in video on our YouTube channel :

<https://youtu.be/Jveat1Eb8zU?si=HTPuUvtF5wHTQ5uC>

https://youtu.be/x7RZpc_8iPg?si=OY71pGZr9XJu1jbF

**Photo of version 650*

ECO-DESIGNED

98% of the aluminum is recycled, confirming our eco-design approach. The aluminum used is composed of 70% recycled aluminum.

Aluminium is synonymous with durability. Buying an aluminium boat is a long-term investment.

A deep "V" hull

In naval architecture, a hull is considered to have a deep V from 20 degrees, and this is what we find at a minimum at the rear on the entire VALKYRIE BOAT range.

UNSINKERIBLE

A special seawater-resistant and non-spongy foam ensures the ship's buoyancy under all circumstances, even in the event of major damage.

Buoyancy is greater than the ship's carrying capacity. Have faith in your ship; it will always bring you safely back to port!

**"A VERSATILE VESSEL that can
be customized to your needs"**

The VALKYRIE BOAT range is fully customizable, available in sizes from 6m to 12m to suit your activities. Need a boom? A livewell? An extra storage compartment or rod holders? It's no problem thanks to the use of aluminum, which offers unparalleled flexibility. The Valkyrie 6 was designed using the same principles as a classic RIB (rigid inflatable boat). The hull/tube volume distribution is virtually identical.

In conclusion, it offers all the advantages of a rigid inflatable boat without the drawbacks! Whatever your plans, don't hesitate to contact us; we'll work with you to understand your needs.

TECHNICAL SPECIFICATIONS OF THE 800

Design: Naval Architecture firm *Œuvres Vives*

HULL LENGTH	8.0 m
HULL WIDTH	3.0 m
SCOPE	100 NM
SEA STATE	4
MAXIMUM MOTORIZATION	2 x 300 hp
LIGHTLY ARMED VEHICLE (With 2x300 engines)	3,000 kg*
MAXIMUM NUMBER OF PEOPLE	8/12
APPROVAL	222

* Data to be confirmed during manufacturing

STANDARD EQUIPMENT

ÿ 4 aluminum cleats
Aluminum railings
ÿ Tow mast
ÿ Aluminum anti-slip deck
ÿ Aluminum sit-stand helm
ÿ Aluminum console/windshield
ÿ T-top
ÿ Homologation plate

ÿ Anode bracket and anode
Anchor locker
ÿ Towing ring with shackle
ÿ 100-liter fuel tank
ÿ Boarding ladder
ÿ Lifebuoy
ÿ Fire extinguishers
ÿ Anode

STANDARD ELECTRICAL EQUIPMENT

ÿ Compass
ÿ Waterproof electrical panel
Double-pole circuit breaker
ÿ Cigarette lighter/USB sockets (12V)
Navigation lights
ÿ 2 x 4-LED spotlights
ÿ Battery boxes

VALKYRIE® 800

Overall plan

Caractéristiques techniques	
Longueur hors tout	8,945m
Longueur de coque	8,00m
Largeur hors tout	3,00 m
Masse lège armé estimée	2713 kg
Masse en charge max estimée	4478 kg
Portée	100 NM
Etat de mer	4 (échelle de Douglas)
Motorisation max	2 x 150 cv
Capacité	12 pax
Reglementation	D222
Les caractéristiques du navire sont prévisionnelles et pourront être modifiées suivant les choix du client, du chantier ou des contraintes réglementaires

VALKYRIE®800 as described above

Yamaha 2x150 hp outboard motors

The "engine" service includes: hydraulic steering / engine installation / electrical connections / electronic connections / batteries (depending on the connected equipment) / battery coupler with peripheral device / electrical and galvanic hull inspections by an expert / sea trials

Price* (excluding VAT) ex-works VALKYRIE®800 €132,053

* Valid until 31/12/2025

OPTIONS (excluding VAT) – not included, to be selected

Division 222 approval with Bureau Veritas structural certification - will depend on the level of customization compared to the version of the building €5,000

Support from our design office for homologation in division 222 €2,500

NUC module A1 approval (subject to other CSN requirements) €5,000

NUC module G or B approval Price upon request

Support from our design office for NUC homologation €2,500

Vehicle homologation Price upon request

Support from our design office for river certification €2,500

Electrical and electronic options

Economy electronics package: Helix 7 GPS/fishfinder + RT750 AIS VHF radio + antennas €2,341

Standard electronics package: Helix 9 GPS + RT750 AIS VHF + antennas €2,812

Medium electronics package: Helix 10 GPS + RT750 AIS VHF + antennas €3,348

Premium electronics package: Solix 12 GPS + RT1050 AIS VHF + antennas €5,969

PRO electronics package: Apex 16 GPS + RT1050 AIS VHF + antennas €7,942

LOFRANS 1000W windlass with 14kg anchor €2,000

SE40 Bow Thruster €2,500

Payment terms :
1/3 upon ordering,
1/3 upon return.

Balance due upon departure from the construction site

Metal fabrication options

Aluminum Top	€1,950
Sunshade with tarpaulin over passengers	€2,000
Aluminum sheet metal cover over the passengers	€3,200
Gate in the shields	€660
Rear security door	€550
Standard engine protection	€450
Black delta/omega 80x70 mm defense - price per linear meter	€200
Delta/Omega 80x70 mm white fender - price per linear meter	€250
Delta/Omega 150x100 mm black defense - price per linear meter	€425
Additional cost Lockable drain	50 €
Custom-made additional handrails - price per linear meter	€25
Removable handrails - price per linear meter	€250

Decoration

Passenger benches (2 benches with 3 seats each)	€1,200
Logo 500x500 mm	€500
Solid white paint	Price upon request
Heat-sealed film on the case	Price upon request
Non-slip paint deck coating	Price upon request
Seadek - price per m ² including installation	€250
Flexiteek - price per m ² including installation	€450
Single-color upholstery for a 2-passenger bench	€575
Single-color upholstery for a 3-passenger bench	€850

Others

Special aluminum antifouling	€2,400
Launching trolley	€6,900
Other options, engines, transport...	Price upon request

Unsinkable aluminum
Customizable ships

Who are we ?

Bord à Bord is an aluminum shipyard renowned for its expertise and know-how for over 20 years (established in 2001). With the takeover of the shipyard in 2019, Loïc and Laurence Cheynet are revitalizing Bord à Bord with the aim of developing new boat models tailored to customer needs.

Indeed, Bord à bord offers a range of aluminum boats up to 24 meters for professionals, recreational boaters, and adventurers passionate about the marine world. Each new build is a unique project, designed according to the client's needs with precise specifications.

Passionate about their craft, our teams of boilermakers, welders, electromechanical technicians, carpenters, architects, engineers, and naval technicians are involved in every project to design, manufacture, and customize high-quality boats, 100% made in France and Brittany. Shortest possible supply chains and an eco-design approach demonstrate our daily commitment to sustainable products.

In order to involve the client more in the heart of the construction process, production monitoring is regularly established by sending photos of the different stages of construction of the boat.

BRETAGNE

VISION

We make every effort to enable our recreational boating customers to live their passion and fulfill their dream, and to enable our professional customers to work on safe, high-performance boats adapted to their profession.

ASSIGNMENT

Our mission is to design and manufacture aluminum boats that meet our clients' specifications and current regulations. Participating in the ecological transition is a point of honor at Bord à Bord, which is why we design environmentally friendly boats.

PEOPLE FIRST

At Bord à Bord, we firmly believe that actively listening to our customers allows us to constantly improve and innovate to enhance our products. This enables us to offer them the solutions best suited to their businesses. Teamwork is a real asset, both internally and with our many partners.

"Why choose an aluminum boat?"

QUALITY

Our boats are fully welded using the TIG/MIG protocol, and everyone is involved in ensuring quality control.

LIFETIME

Aluminium is synonymous with durability; buying an aluminium boat is a long-term investment.

AESTHETIC

Our boats feature a brushed surface treatment for a refined finish. Numerous options are available to personalize the boat's design.

ROBUSTNESS

The structure and optimized thickness of the aluminum used in the boat give it strength and durability.

RESISTANCE

Aluminium offers high resistance to shocks and friction.

ENVIRONMENT

The aluminum used in manufacturing is composed of 70% recycled aluminum. Aluminum can be recycled up to 98%, confirming our eco-friendly approach.

design.

UNSINKABILITY

All our professional vessels and boats are of unsinkable design

FLAMMABILITY

Safety on board is enhanced by the non-flammable nature of aluminum.

BOATS SIDE BY SIDE AROUND THE WORLD

GENERAL TERMS AND CONDITIONS OF SALE 1/2

These general terms and conditions of sale govern all sales of Goods by BORD A BORD to the Buyer. They apply to the contractual relationship between BORD A BORD and any Buyer and constitute the legal basis for all sales that have not been the subject of specific express agreements accepted by both parties.

ARTICLE 1 - APPLICATION OF THE GENERAL TERMS AND CONDITIONS OF SALE

General Terms and Conditions of Sale (22/04/2020) are systematically sent or given to each buyer to enable them to place an order and apply automatically to all sales of new motorboats or pleasure craft manufactured by BORD A BORD. Consequently, placing an order implies the Buyer's full and unreserved acceptance of these General Terms and Conditions of Sale, to the exclusion of all other documents such as brochures and catalogs issued by the Company or the manufacturer of the Goods, which are for informational purposes only.

ARTICLE 2 - ORDER - MODIFICATION OF GOODS - DELIVERY The order is final once the Bord à Bord quote or order form has been accepted and signed by the Buyer. Any modification to the order must be agreed upon in writing by both parties. Any modification will automatically result in a postponement of the initially scheduled delivery date. The sale of the boat will be formalized by a signed delivery note.

ARTICLE 3 - DATE OF AVAILABILITY AND COLLECTION OF GOODS The date of availability of the goods is specified in the order form. For personalized goods (subject to options), the availability date is given for informational purposes only. As soon as the Company has carried out the necessary checks with its suppliers, it will inform the buyer and provide a firm date.

The Buyer agrees to take delivery of the goods at the Bord à Bord shipyard (EXW) within 15 days of the availability date indicated on the order form. After this period, Bord à Bord may, at its discretion, cancel the sale without prior notice and dispose of the goods. The deposit paid by the Buyer will remain the property of Bord à Bord.

ARTICLE 4 - GUARANTEES AND LIABILITIES

4.1 COMMERCIAL WARRANTY

The Buyer benefits from the BORD A BORD commercial guarantee under the following conditions and terms:

The warranty is 1 year on the aluminium structure of the boat in the case of metalwork and installation of accessories for professional boats.

The warranty is 2 years on the aluminum structure of the boat, including metalwork and installation of accessories for pleasure boats.

The warranty is 1 year on accessories - Manufacturer's warranties. The warranty is personal to the Buyer and non-transferable. The warranty applies provided that the usage recommendations indicated in the Owner's Manual are respected.

Any work on the boat without the manufacturer's written authorization will result in the loss of this warranty and possibly legal action.

If the warranty return requires Bord à Bord's intervention, this will be done in their workshop.

In this case, the costs associated with returning the boat to the workshop will be borne by the boat owner.

4.2 LEGAL GUARANTEES

If the owner makes any modifications to the goods, they must use a professional or authorized repairer for maintenance, repairs, or the supply of spare parts. Otherwise, the Buyer will lose the benefit of Bord à Bord's legal guarantees.

ARTICLE 5. - PRICE

The selling prices of the Goods are those applicable at the time of signing the quote or order form for series boat models.

The selling prices of the goods may be adjusted at the time of ordering the raw material and other components in the case of custom-made models or models that have been modified by a naval architect.

In the case of specific requests from Maritime Affairs, certification bodies, classification bodies, maritime or river experts or other authorities, during or after construction, additional costs could generate a price increase.

In the event of significant price fluctuations of +/-5% of raw materials or components at the time of ordering them, an adjustment of the selling price may also take place.

Shipping costs are not fixed; they may be updated at the time of delivery.

Prices are quoted in euros excluding VAT.

However, the costs of launching, launching, handling, packaging, transport, delivery, storage, registration, and customs clearance remain the responsibility of the Buyer. Any tax, duty, fee, or other charge payable under French regulations or those of an importing or transit country is also the Buyer's responsibility.

GENERAL TERMS AND CONDITIONS OF SALE 2/2

ARTICLE 6. - PAYMENT 6.1.

TERMS AND CONDITIONS

Unless otherwise stipulated in our quotes or order forms, the Buyer shall pay a deposit of 30% of the price including VAT upon ordering, the said sum not constituting in any way a down payment.

The goods are delivered by Bord à Bord (ex-works EXW) only upon full payment.

Bord à Bord does not intend to grant any discount for cash payment or payment made before the date resulting from these Terms and Conditions.

6.2. DELAY

Any sum not paid by the due date indicated on the quote or order form will automatically incur penalties equal to three times the legal interest rate. In addition to late payment penalties, a fixed fee of €40 will be charged for recovery costs.

ARTICLE 7 - TRANSFER OF RISKS

7.1. TERMS AND CONDITIONS

From the date of delivery of the Goods, including delivery to Bord à Bord's premises, the risks, including loss, theft, deterioration of the Goods or damage caused by these latter, are transferred to the Buyer notwithstanding the retention of title subject of Article 9 below. Therefore, it is the Buyer's responsibility, from the moment of the transfer of risks, to insure the goods sold against theft, fire or any other form of destruction, degradation, accidents, or disappearance. It also belongs to

The Buyer is required to take out insurance guaranteeing their civil liability. Bord à Bord se disclaims all penalties for loss of operation following immobilization of the vessel.

The client agrees not to recover funds from Bord à Bord beyond the limits of their policy. insurance.

7.2. IN THE CONTEXT OF A SALE ABROAD

For sales of goods destined for foreign countries, the transfer of risks and costs will be carried out according to the ICC Incoterm mentioned in the quotation or purchase order, latest version in force at the time the offer was established.

ARTICLE 8. - RETENTION OF TITLE

The goods remain the property of the company Bord à Bord until full payment of the price.

ARTICLE 9 – MISCELLANEOUS PROVISIONS

In the event that one or more of the stipulations of these General Terms and Conditions are (in) t if set aside by a legislative or regulatory provision or by a court decision, all other provisions would remain applicable.

ARTICLE 10. – FORCE MAJEURE

The occurrence of a force majeure event has the effect of suspending the execution of the contractual obligations of the company Bord à Bord à Bord.

Force majeure is defined as any event beyond Bord à Bord's control that prevents its normal operations during the manufacturing or shipping of products. Force majeure events include, but are not limited to, total or partial strikes, strikes by Bord à Bord's suppliers, subcontractors, or carriers, as well as interruptions in transportation, energy supply, raw materials, or spare parts, and pandemics and epidemics.

ARTICLE 11. – APPLICABLE LAW - JURISDICTION

For all disputes relating to the application of these general terms and conditions of sale or services provided by BORD A BORD, the Commercial Court of Saint-Brieuc shall have sole jurisdiction.
